

REMARKS

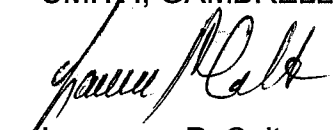

Specification Amendments.

The Specification has been amended to correct the filing date of the priority patent application. The original date given was mistakenly typed in the Specification as 30 April 2003, and the correct date is 30 April 2002. As this date is correct on the parent PCT application and is a matter of record in the USPTO, this correction is ministerial in nature. Further, the USPTO has the correct date on its internal documents, such as the Official Filing Receipt. No new matter has been added.

CONCLUSION

Applicant submits that the patent application is in condition for examination and allowance and requests such actions. If there are any questions, direct them to the below signed attorney of record.

Respectfully submitted,
SMITH, GAMBRELL & RUSSELL, LLP

Laurence P. Colton
